Subject: RE: Library sites future support options

Hi Paula,

This is very bad news for all of us, we will truly miss you and your superb work. You were invaluable to us in the early days of the VACO Library web site. I always appreciated your quick responses to web site changes and even more importantly your great suggestions on making things better.

I can only hope you are able to find work soon, you will be a great asset wherever you go! I know it will sound like empty words, when I say to you all the best. It was a joy knowing and working with you!
